EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

claims 15-28 have been cancelled.

The following is an examiner's statement of reasons for allowance: the claimed sludge pond collection device with a centrifuge removing solids from the device to create a biosolids composition with a transfer device and a transport vehicle to transport biosolids to a fixed processing plant mixing a stabilizing agent, heating and extruding sterilized pellets, and drying the pellets is not found in the prior art either singly or in combination. The closest prior art is considered Sheets (US 6,863,826) which discloses heating and mixing sludge but not the claimed sterilized pellet extrusion and Pressley et al. (US 6,719,903) which discloses biosolids mixing and heating but not the claimed pellet drying. Other references cited in this application contain one or more of the claimed elements but not whether a person of ordinary skill in the art, possessed with the understanding and knowledge reflected in the prior art, and motivated by the

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
